

SAFETY SERVICES

SCHBSIF: Your Partner in Workplace Safety

Through practical safety resources, customized training programs and personalized support, we help South Carolina's construction professionals create **safer job sites and stronger businesses.**

► Safety Services Built for the Construction Industry

◆ Personalized Safety Support

Our experienced safety professionals work directly with members to provide practical guidance, answer questions and help strengthen workplace safety programs.

◆ Proactive Risk Prevention

We help members identify potential hazards before they become costly incidents through hands-on guidance and construction-focused risk management strategies.

◆ Customized Training Programs

We provide safety training programs designed to help members build a strong safety culture and reduce workplace risks.

◆ Onsite Safety Seminars

Our safety professionals provide relevant, industry-specific training that helps improve awareness, compliance and job site performance.

◆ Practical Safety Resources

Members have access to practical tools that support day-to-day safety efforts and help reinforce best practices across every job site.

Discover how SCHBSIF's safety services and personalized support help members reduce risk and create safer workplaces across South Carolina.
